432 EVO REFERENCE MUSIC SERVER

432 EVO STANDARD

Includes standard external power supply, HDMI audio and USB 2.0 audio output

Article	Description	MSRP
EVO-ST-2T-SI	2TB Silver with internal rip facility, <i>standard power supply</i>	2000
EVO-ST-2T-BI	2TB Black with internal rip facility, <i>standard power supply</i>	2000
EVO-ST-LIN	High-end linear supply for 432 EVO standard (optional) when orderered together with 432 EVO +200€, as option later: 280€	200

Standard version can always be upgraded to the HIGH-END or AEON version for the price difference between models!

432 EVO MINI

Mini music server, identical software as 432 EVO STANDARD but with a simplified 432 Hz setup. The mini supports most PCM formats (DSD is unsupported on the mini, buy standard, essence or high-end instead for DSD support) and all major streaming services like Tidal, Qobuz, Spotify just like all our other models.

Connects to USB DAC (not-included) or USB speakers (not-included) and can also be a multi-room server for Sonos, Bluesound and any other UPNP or SMB based network player.

Article	Description	MSRP
EVO-MINI-SI	1 TB mini server silver	1000
EVO-MINI-BI	1 TB mini server black	1000
EVO-MINI-LIN	High-end linear supply for 432 EVO MINI (optional) when orderered together with MINI: +200€, as option later: 280€	200

432 EVO ESSENCE

Music server with integrated DAC: high-end analog rca + coax & toslink SPDIF outputs up to 24/192 with oven controlled low-jitter clock. Also includes USB 2.0 audio outputs and HDMI audio. Compatible with Roon.

Article	Description	MSRP

EVO-ES-2T-BI	2TB Black with internal rip facility + internal integrated supply	3000
EVO-EL-2T-SI	2TB Silver with internal rip facility + external linear supply	3200
EVO-EL-2T-BI	2TB Black with internal rip facility + external linear supply	3200
HWBOOST	Faster motherboard + extra RAM, recommended for Roon	250

Extra storage for AEON, HIGH-END and ESSENCE

Article	Description	MSRP
HDD-3TB	3 TB storage instead of default 2 TB	Please contact your reseller for a price quote
HDD-4TB	4 TB storage instead of default 2 TB	
HDD-6TB	6 TB storage instead of default 2 TB (only available when HWBOOST option is also chosen)	
HDD-8TB	8 TB storage instead of default 2 TB (only available when HWBOOST option is also chosen)	
HDD-12TB	12 TB storage instead of default 2 TB (only available when HWBOOST option is also chosen)	

All models feature remote VPN support for troubleshooting by professional IT support engineers.

AEON, HIGH-END and ESSENCE can optionally run Roon. We recommend to order the HWBOOST option when Roon is to be used as library management software instead of the bundled LMS library software.

Optional Roon license needs to be ordered directly from Roon by enduser via the roonlabs.com website.
