432 EVO REFERENCE MUSIC SERVER

432 EVO MASTER mk3 with true triple linear PSU

Best in class music server with high-end USB output clocked by a separate dedicated low jitter superclock. Software jitter tuning, dedicated audio processing core and tuned realtime audio kernel.

2 TB SSD on spring suspension system & sata filtering. Bitperfect TEAC cd-only ripdrive. Logitech Media Server or Roon 2.0 library server.

Includes separate custom high-end external true triple linear power supply with 3 independent buffered ultra low noise ultra fast DC rails for server, USB output and superclock.

No shared transformer = superior design. Per country custom transformers, the real statement. Bitperfect output or custom upsampling up to 24/768 with SQi and/or 432 Hz post processing.

Description	MSRP
Ultimate dual enclosure 432 Hz music server. Color: black	13.200 €
