

432 EVO REFERENCE MUSIC SERVER

432 EVO price list August 2026

432 EVO AEON & HIGH-END mk3 with dual PSU

Aeon: best in class music server with audio grade dual USB output clocked by a separate dedicated low jitter superclock. 1 TB SSD on spring suspension system. Bitperfect TEAC cd-only ripdrive.

Logitech Media Server or Roon library server. Bitperfect output or custom upsampling up to 24/768 with SQi and/or 432 Hz post processing. Software jitter tuning, dedicated audio processing core and tuned real-time audio kernel, now based on 432OS.

High-end: similar to AEON but with integrated clock on high-end USB output card instead of dedicated superclock board. HIGH-END can be upgraded to AEON within the 2 year warranty period

Description		EU MSRP

Options

For HIGH-END, AEON: upgraded sata cable + custom 3D printed shield for isolating dedicated USB output	€ 600
Roon license 432 EVO comes with 2 bundled library server software packages: Roon and LMS. Switch between both in 10 seconds. For Roon, you need a license from Roon directly.	See https://roon.app/

432OS launched September 2024!

432 EVO's own 432OS real-time enterprise grade operating system now with improved sound quality, stability and higher network throughput and a 10 year life cycle, is the new OS since September 2024 on all servers sold.

432 EVO MASTER: A strong challenger in the top segment

the absolute sound

"The 432 EVO Aeon is the best sounding music server I've listened to at length, a product that deserves the highest recommendation." – Andrew Quint

432 EVO's additional price list

SSD upgrades

Description	MSRP
2 TB instead of the default 1 TB	€ 900
4 TB instead of the default 1 TB	€ 2.480
1.92 TB datacenter grade with 5Y SSD warranty, instead of the default 1 TB	€ 3.640

Our datacenter grade SSD's are fully shielded, and feature hardware power loss protection, extreme reliability putting SATA DOM's to shame, improved latency and even higher sound quality.

RAM upgrades

16 GB instead of the stock 8 GB	Contact reseller
